SMALL BATCH HANDMADE SPIRITS FROM S. VANCOUVER ISLAND MADE WITH B.C. INGREDIENTS & STEADFAST CRAFTSMANSHIP

═ KAZUKI GIN ═

Sheringham Distillery is proud to introduce the latest spirit to our collection. Kazuki Gin was born out of love of both Eastern and Western botanicals and gin making techniques.

The name Kazuki is a combination of two Japanese characters. **KAZU**, meaning "harmony", refers to the blending and respect we have for both East and West cultures. **KI** means "radiance" and is an ode to the radiant flavours of the botanicals as they dance on your palette.

Cherry blossom petals were imported from Japan, as well as premium yuzu peel. From Westholme Tea Farm in the Cowichan Valley we procured green tea leaves and flowers. As the only producer of green tea in Canada, we knew they had to be a part of our new spirit. Expect dynamic flavours from start to finish with the special and unique essence the Kazuki provides.

Tasting notes include a wonderful citrus forward start of lemon, grapefruit and mandarin orange as provided by the yuzu fruit. Next up are subtle floral notes similar to mild cherries as provided by the sakura, aka cherry blossom petals. Mild, earthy middle notes are provided far in the back thanks to the juniper berries. The juniper expression is much softer and rounder than you would expect. Early finishing notes are of a dryness on the center of your tongue from the fresh and softly toasted green tea leaves. Lastly the flowers from the green tea plant itself creates a creaminess and velvetly-like texture at the finish.

We invite you to try our latest spirit.   - Jason and Alayne MacIsaac
